

Westfalia Cycle Carrier

The Westfalia Cycle Carrier allows you to transport your cycles easily, helping make your journey more relaxing and enjoyable.

The Westfalia Cycle Carrier is a highly versatile, foldable, towball mounted, carrier system. The ultimate in convenience, no tools or assembly of individual parts are required to attach the carrier to the vehicle, making it easy to fit and use. Mounted onto the rear of the vehicle means cycles can be loaded and unloaded quickly and simply without having to lift bikes up onto the roof.

Unlike roof mounted carriers, the Westfalia doesn't significantly increase fuel consumption as it sits in the slipstream of the vehicle and does not create the drag commonly associated with roof mounted carriers. The ultimate in flexibility, the Westfalia Cycle Carrier doesn't restrict access to the boot even when loaded.

Compact

- Measures 1260mm (W) x 660mm (H) x 690mm (D) when unfolded and ready for loading
- Folds down to 580mm (W) x 225mm (H) x 690mm (D) when not in use

Will hold the heaviest cycles

- With a payload of up to 60kgs in weight the Westfalia Cycle Carrier is suitable for carrying heavy electric cycles as well as ordinary cycles

Easy to fit and use

- With no assembly of individual parts required the Westfalia Cycle Carrier can be used straight out of the box
- Thanks to its compact size the Westfalia Cycle Carrier can be comfortably attached to the towball and carried on a passenger car
- Ease of handling and full access to the tow bar during assembly means there is no damage to the car's paintwork
- No tools are required to fit the Westfalia Cycle Carrier. One hand movement is enough - simply attach and tighten with the minimum of effort required
- Free access to the boot even when loaded with cycles or with the PortiloBox, PortiloPlatform or PortiloSki attached, via convenient swivel-down mechanism
- The loading height means less effort required to lift the bicycles onto the carrier compared to a roof mounted carrier

- Can be carried easily using the handle
- Suitable for all types of cycles

Safe and secure

- Cycles and carrier are kept secure from theft by the inclusion of locks
- For ease and convenience, one key fits all locks
- A number plate can be positioned neatly and securely on the rear of the carrier.

Accessories

- Rail extension - will increase the capacity to three cycles
- Loading ramp - to help make loading cycles easy
- Additional brake light - a legal requirement if the cycles obscure the 3rd brake light of the vehicle
- Wall mounting bracket - allows you to easily store the Westfalia Cycle Carrier in the minimum amount of space
- Storage bag - keeps the Westfalia Cycle Carrier clean and dust free when not in use

Dimensions	Unfolded: 1260mm (W) x 660mm (H) x 690mm (D) Folded: 580mm (W) x 225mm (H) x 690mm (D)
Weight	17.5kg
Maximum payload	Total: 60kg / Individual rail: 30kg
Load capacity cycles	2, 3 with expansion rail
Fits frame dimensions (mm)	80mm
Fits tyre widths	Up to 50mm
Assembly on towball	Patented brace
Assembly time on vehicle	30 seconds
Full access to the boot with carrier and cycles mounted	
Approvals	TUV, ECE
Fits all types of cycles including electric	
One key fits all locks system	
Guarantee	5 years
Operation	Cycles fastened with frame grips and ratchet straps with clamp locks

Technology that moves you
